### **PACKAGING INSTRUCTIONS**

- Please make sure to send us as new items as possible – if second hand, please send items that

are **clean and in good condition**

- It makes a huge difference for us if you pack the items you're sending in categories, as the most time-consuming part of everything we do in Solidarity has turned out to be the sorting out of donations.
- Ideas for efficient packaging:
- Fold clothes horizontally, like they do in stores, sort them according to kind, gender, size and place them in plastic bags, preferably transparent ones, keeping them flat. the idea is that volunteers can be able to just pick up and give something with as less fuss as possible.
- Keep socks and shoes in pairs. As far as shoes are concerned, the ideal would be to place them in transparent bags (not with their laces tied, especially if they are very thin) and write on the bag gender and size, e.g. Women's 37)
- Before you sent your package make sure to write on it its contents (clothes, sleeping bags etc)
